# Setting up step templates to send jobs to Quadient Inspire Designer

Copy and customize the **ComposeAFP** and **ComposePDF** to send jobs to Quadient Inspire Designer for processing.

To set up a step template to send jobs to Quadient Inspire Designer:

1. Click the **Workflow** tab.
2. In the left pane, click **Step Templates**.
3. Right-click the **ComposeAFP** or **ComposePDF** step template and select **Copy**.
4. On the **Copy** page, review and update these fields:
  - Data files
  - Data modules
  - Fixed data files
  - Fixed data modules
  - Quadient JOB file
  - External command
  - WFD file
5. Click **OK**.
